

Professional Certificates

NorQuest College's Professional Certificates offer career development opportunities in business and supply chain fields. Upon completion of the one-year programs, learners will receive a non-credit Professional Certificate and have the skills needed to be successful in a long-term career.

Our Professional Certificates starting Fall 2021 include the [Business Analysis Professional Certificate](#) and [Supply Chain Professional Certificate](#).

Get started today—apply before the [June application deadline](#).

Learners will:

- Receive advanced standing in the following professional designation programs:
 - Supply Chain Management Professional Designation through Supply Chain Canada
 - Entry Certificate in Business Analysis through International Institute for Business Analysis

These designations are in high demand and are regularly requested in job postings.
- Gain workforce-relevant training through case studies, capstone projects and a three-month paid work placement.
 - NorQuest has a growing list of employer partners who are looking to hire our learners.
- Study course material that has been developed by subject matter experts, and make connections with people currently working in the industry.
 - Edmonton is growing and new companies such as Amazon are opening and offering jobs in these fields.
- Be eligible for a post-graduate work permit (PGWP) upon completion of either in-person program.

Supply Chain

PROFESSIONAL CERTIFICATE PROGRAM

Supply chain management is an increasingly important career as consumers have come to expect goods and services faster, with more convenience, and from anywhere in the world. From logistics and procurement to transportation and bidding and contract management, this one-year professional certificate program will prepare you for work across the supply chain industry.

CAREER OPPORTUNITIES

Work toward a Supply Chain Professional Designation from Supply Chain Canada, and explore a career in purchasing, logistics, operations, supply chain, and many others.
